68%

of Years 9-10 students reported **inappropriate content appears** on screen outside of school

31%

of Years 9-10 students reported **missing out on learning** because they can't use screens at home

NSW GOVERNMENT

Best Practice in Screen Use for Education

PROUDLY FUNDED BY THE NSW GOVERNMENT

Based on the NSW statewide screen use survey findings with 1057 NSW K-12 students (in both government and non-government schools) and 1686 parents in **2025**, before implementation of the social media ban. The survey asked students to report their screen use in the last full school day at school and outside of school, for learning and for fun, as well as their experience with using screens for learning in general. It also asked parents if they would recommend a limit for their child's screen time. The shown limit is only for parents who would recommend a limit.
